## PERSONAL PROJECTS

### Employee Management System (03/2021 - 04/2021)

- It is a Desktop Application.
- Here in this system, you can manage your employee records with ease
- The project comes along with database as backend

### Dynamic Web Page (06/2021 - 07/2021)

- My Web Page name is " Insane Travels " .
- Where you can see the all details about the Organization using foe html & css.
- Github Link : <https://akshaybahir143.github.io/insane-travels/>

### Web Application (02/2022 - 02/2022)

- This is a simple web-application that allows you to add, delete or update the "Covid-19" patients data.
- It is web interface to input data.
- Github Link : <https://akshaybahir143.github.io/covid19-patients/>

### Chat-Application (04/2022 - 04/2022)

- My project is an example of real-time chat application using React.js Server.
- Is a method of using technology to bring people and ideas together despite of the geographical barriers.
- The technology has been available for years but the acceptance it was quit recent.
