With 74.00 percentage
- **HSC** FEB 2017  
With 47.08 percentage
- **MH-CIT** MAY 2017  
With 93.00 percentage

## Project's

### 1. Employee Management System

- It is a Desktop Application
- some person maintains the data manually, which required a high amount of time as there are so many people work in the organization. The organization keeps the record of all the employees in the paper which is not a secure way of maintaining the data.

### 2. Personal Assistant (Jack)

- The query for the assistant can be manipulated as per the user's need.
- Speech recognition is the process of converting audio into text.
- This is commonly used in voice assistant like Alexa, Siri, etc.

### 3. Rock Paper Scissor

- Hand-games using gestures to represent the three conflicting elements of rock, paper, and scissors
- most common since the modern version of the game was created in the late 19th century, between the Edo and Meiji periods.
